

HOW TO GET TISI LICENSE TO IMPORT INDUSTRIAL PRODUCTS IN THAILAND

TISI license to import industrial products in Thailand is a 4 steps process.

1 Submit the application to access the service

through TISI license system (e-submission) for product testing and Quality Control system assessment.

Request the authorization to import samples for testing by providing the following documents:

1. Company and MD documents
2. Copy of Invoice\
3. Product specifications (details, pictures)

2 Import sample through NSW

The applicant must upload the following documents:

1. Copy of application of product import for testing
2. Invoice
3. Product details

After application has been approved the applicant can collect the product from the Custom and request to submit samples to TISI for evaluation

Samples are submitted and application fee paid.

3 Assessment of Quality Control System of Factory

This step has two cases:

1. If manufacturer is registered already in TISI license system: Submit Letter of Conformance (LoC) from manufacturer
2. IF manufacturer is not registered in TISI license system: a) apply for the assessment of Quality Control System through E-License system; b) Contact TISI or Inspection Body for the assessment of Quality Control System; c) Pay the assessment service fee

4 Submit the Application for License (Mor.Or.5)

Required documents:

1. Product test report
2. Quality Control Assessment Report or LoC

Timing for the last step: 15 working days. A license fee is applied by TISI
